

# Information Communication Technology

---

**Awarding Body:** Students follow the OCR Advanced Subsidiary, Advanced GCE Applied ICT.

## Course Content and Examination Requirements

Year 12	Year 13
<b>AS Level Units</b>	<b>A2 units leading to full Advanced GCE</b>
Unit 1 Using ICT to communicate <b>Portfolio</b>	Unit 9 Working to a brief <b>External but internally assessed.</b>
Unit 2 How organisations use ICT <b>External</b>	Unit 11 Interactive Multimedia Products <b>Portfolio</b>
Unit 3 ICT solutions for individuals and society <b>Portfolio</b>	Unit 12 Publishing <b>Portfolio</b>

An ICT or qualification in Business and Communication would be a recommended pre-requisite to get the best results from this course. However consideration will be taken for students who have 5 A-C grades in other subjects.

### Relevance to Further Studies and Careers

Information communication technology is a rapidly expanding area of study and it will be helpful to any student in either Higher Education or employment. There is a wide variety of courses in Higher Education for which an AS/A2 level in ICT will be an excellent basis.

The specification has been designed to give a broad introduction to ICT and aims to prepare candidates for further study in higher education or further training which might be whilst in employment.

Candidates who achieve this qualification may be prepared to enter a variety of HND or degree level courses in ICT or computing related subjects.
